

Product Enhancement Notice

DECRA has recently designed a new debris guard called **XD Debris Guard**, which will replace both the High Profile and Low Profile Debris Guards. The transition to the new **XD Debris Guard** will be implemented around August 1, 2017. The transition could affect inventories and installations if special care is not taken.

All FULL PALLETS will be marked as DO NOT MIX.

The new **XD Debris Guard** is designed to accommodate both the XD Rake Channel and the XD Valley.

If you have any questions or concerns about these changes please contact your local DECRA Regional Manager.
