

October 11, 2006

Ref: 001

The revised printing (March 1, 2001) of the DECRA Roofing Systems warranty contains a change relating to the “appearance warranty” that was part of all previous editions. In order to provide the consumer with a comprehensive form of protection, DECRA Roofing Systems now terms certain “appearance” problems as a manufacturing defect (including the excess loss of granules).

Therefore, the appearance coverage is now included as a remedy against manufacturing defects and will be handled, accordingly.

DECRA Roofing Systems, Inc.
